pay its bills as they are available due) and leverage) the extent to that the business smitten by creditors). [20],[ 22], [24] 0

## II. OBJECTIVES

- To analyze the potency of the organization victimization Liquidity Ratios.
- To know concerning the turnover victimization Turnover Ratios.
- To know this assets position.
- To compare the money position victimization Comparative record

## III. RESEARCH METHODOLOGY

### RESEARCH style

In this study the descriptive analysis is followed.

### SAMPLING methodology

Ratio analysis.

### PRIMARY knowledge

To generate primary knowledge for the analysis, direct personal interview and discussion was created with company assistant manager of finance, accountants and different officers [7],[ 9],[11]

### SECONDARY knowledge

The secondary knowledge ar those that have already been collected by somebody else. therefore the info was collected from company document reports and books. [31],[33],[32] I took knowledge comprise annual reports and post records. Company has provided Pine Tree State annual reports from 2015-2016 to 2017-2018 by facilitate of that, I ready my report. [8],[ 10],[12]

## IV. RESULTS AND DISCUSSION

By conniving the ratios we are able to see the position or performance of the corporate.

Company getting into the profit method each year smart|permanently} performance and good management.

Used new technology and sensible accounting management helps to success. [19],[21],[23]

Induct, retain and develop glorious staff and obtain their total

involvement in achieving company goals. Provide chance for private development and advancement to any or all with requisites integrity ability and ambition. [13], [15], [17]

### V.CONCLUSION

Quantitative relation analysis helps to grasp the money position of the corporate, and it conjointly helps to [26],[28],[30] grasp the profit and loss of the corporate. It helps them to beat from the loss. The financial condition quantitative relation may be a live of the financial condition of a priority. It means that the flexibility of a priority to fulfill its total liability out of its total assets. quantitative relation analysis helps the budget to mirror however way the corporation is in a position to attain its objectives and it conjointly helps to grasp the past and gift money performance of the corporate. [14],[16], [18]
